WORK EXPERIENCE

Web Developer | Lebanon Dental Cornwall   **Nov 2024 – Present**

- Developed a fully responsive, user-centric website for a dental facility, enhancing their online presence.
- Collaborated with stakeholders to understand branding and service offerings, translating requirements into an intuitive site layout and navigation.
- Optimized visual design to create an aesthetically appealing interface while prioritizing an intuitive user experience (UX).

Web Designer | Lebanon Family Dental   **April 2024 – June 2024**

- Developed and customized Lebanon Family Dental's website using WordPress, improving the site's design and navigation, resulting in enhanced user experience.
- Ensured the website is responsive for all devices by utilizing WordPress tools, leading to consistent user experience throughout the entire site.

PROJECTS

Entropy Gardens   **Nov 2024 – Present**
Nursing Home Management System project | HTML | CSS | JavaScript | PHP | Laravel

- Developed a Laravel-based system to streamline home care operations, featuring dynamic scheduling, task automation, and secure role-based access. Enabled real-time tracking and communication through dedicated portals for administrators, caregivers, and resident families
- Designed user-centric interfaces and implemented responsive layouts for cross-device accessibility. Ensured maintainability with modular code structure and optimized performance through efficient database handling.
- Optimized user experience with intuitive Blade templates, incorporating search and salary update forms to support seamless interactions across roles.

Griscom 5 Star   **Nov – Dec 2023**
Restaurant website project | HTML | CSS | JavaScript

- Led the development of interactive menu displays using HTML/CSS, which improved user engagement and visual appeal
- Engineered a secure online ordering system with JavaScript, ensuring seamless transactions and customer satisfaction.
